PROFESSIONAL SUMMARY

Results-driven Technical lead and Java Backend Developer with 4.5+ years of experience in enterprise application development, application modernization, process automation, and software delivery. Expertise in Java, Spring Boot, REST APIs, batch processing, Linux automation, Shell Scripting, Jenkins CI/CD, and Control-M scheduling. Proven experience delivering scalable enterprise solutions in Agile environments. Passionate team player thriving in collaborative environments, eager to take on leadership roles and contribute effectively to organizational success.

PROFESSIONAL EXPERIENCE

Tata Consultancy Service, System Engineer 02/2022 Present Lucknow India

- Lead a team of 7 engineers and coordinate development, automation, release management, and production deployment activities.
- Served as DevOps & Security Lead for 3 critical applications, ensuring secure CI/CD pipelines with SonarQube and automated testing.
- Assumed the role of Technical Lead within the project over the past year, driving project delivery, stakeholder coordination, team mentoring, and strengthening managerial capabilities alongside technical expertise.
- Designed, developed, and deployed RESTful APIs using Java, Spring Boot, and Hibernate for enterprise-scale applications.
- Migrated legacy Java batch applications from Spring Framework to Spring Boot as part of modernization initiatives.
- Developed batch processing solutions for automated business workflows and reporting.
- Automated data extraction and reporting processes, saving over 80 hours of manual effort per month.
- Refactored complex batch processes, improving execution efficiency by approximately 80% using GHCP.
- Automated JBoss server restart activities, reducing application downtime and improving operational reliability.
- Developed Shell Scripts for Linux automation, log archival, cleanup, compression, and operational support activities.
- Implemented Control-M scheduling solutions for Java and database batch jobs.
- Reviewed SonarQube, SAST, DAST, and SCA reports before application releases and coordinated remediation activities.
- Troubleshoot and monitored live production environments through debugging, incident resolution, log analysis, and application performance monitoring.
- Participated in application modernization initiatives and legacy system migrations.

EDUCATION

Bachelor of Technology (B.Tech) Electronics and Communication Engineering,

08/2017 – 08/2021

Dr. Ambedkar Institute of Technology for Handicapped, Kanpur, U.P

INTERMEDIATE, S.V.I.C Sultanpur U.P

07/2016 – 06/2017

TECHNICAL SKILLS

Languages

Java, Shell scripting

Databases

Oracle

DevOps & Automation

Linux, Docker, Kubernetes, Terraform, Jenkins, CI/CD, Cronjob, shell scripting.

Frameworks

Spring Boot, Spring MVC, Hibernate, REST APIs

Security & Testing

SonarQube, JUnit, SAST, DAST, SCA

Tools

Maven, GitHub, GitLab, Jenkins, Control-M

INTEREST

- Music
- Traveling
- Movies

CERTIFICATION

Google Cloud Certified Associate Cloud Engineer

AWS Certified Cloud Practitioner

AWARDS AND RECOGNITIONS

Best Team Award, *TCS*

- Awarded Going the Extra Mile for persistence and exemplary commitment in TCS
- Star of the Month Award for extending assistance to multiple teams, ensuring smooth workflow.
